Recordings by Electric Phoenix

Other recordings of Electric Phoenix held in the Archive

This is a list of all the recordings in the Electric Phoenix Archive, including those issued commercially, those downloadable from this website and some others which exist in the Archive but which for copyright or other reasons we cannot offer for download at this time.

Other recordings of Electric Phoenix exist, not listed here, falling into three main categories:

1. Backing tracks required for various works: these are lodged in the Archive but not listed here.

2. Alternative recordings of works represented in this list: some of these are lost, others lodged in the Archive, but the recordings listed here are the preferred and authorised versions.

3. Recordings of works not in this list and not in the possession of Electric Phoenix. These may exist somewhere – we remember many live and studio recordings for radio and TV – but we do not know where they might be.
